The Start menu is a graphical user interface element used in Microsoft Windows since Windows 95 and in some other operating systems. It provides a central launching point for computer programs and performing other tasks. It has different names in different operating systems and window managers, such as Kickoff Application Launcher in KDE, Dash in GNOME and Unity, and Start screen in Windows 8.

"I am very happy that you guys released this, not only it is a great idea it was executed properly. I will use this to build a basic AMP site for a customer. I looked at the video and demo sites and was very happy with what could be done. I would really like for Mobirise team to add more widgets to your free website design software.
