(Click Here for Director's Choice Ideas) Here are just a few ideas that I have collected over time and from the Internet. Possibly some of these will get you going in the right direction on your project.

Science Fair Project Ideas

Computer engineering is the application of scientific and mathematical principles to the design and analysis of all hardware, software, and operating systems for a computer system. Computer engineering integrates several fields of electrical engineering and computer science. Computer engineering is one of the most vibrant and constantly changing fields in engineering.

Bachelor of Science in Engineering; Computer Engineering ...

The Wolfram Solution for Optics. Optimize systems of symbolically defined lenses and mirrors, test optical components with built-in image processing or data analysis functions, and calculate complex ray-tracing models.

Wolfram and Mathematica Solutions for Optics

Joseph A. O'Sullivan Samuel C. Sachs Professor of Electrical Engineering Dean, UMSL/WashU Joint Undergraduate Engineering Program PhD, Notre Dame University Information theory, statistical signal processing, imaging science with applications in medicine and security, and recognition theory and systems.
