Japanese architecture (和風建築, Nihon kenchiku) has traditionally been typified by wooden structures, elevated slightly off the ground, with tiled or thatched roofs. Sliding doors were used in place of walls, allowing the internal configuration of a space to be customized for different occasions. People usually sat on cushions or otherwise on the floor, traditionally; chairs and high ...

Tip 5. Use grids, guidelines or rough forms to get the proportions right before you add details. Many students start with a tiny detail (the eye on a face, for example) and then gradually add in the rest of the image...ending up with a drawing that is badly proportioned or doesn't fit on the page (or floats aimlessly in the middle of it).

How to create excellent observational drawings - 11 tips
