Taking the patient's history is traditionally the first step in virtually every clinical encounter. A thorough neurologic history allows the clinician to define the patient's problem and, along with the result of physical examination, assists in formulating an etiologic and/or pathologic diagnosis in most cases.

INTRODUCTION. Sophisticated technologic advances in medicine have proved to be remarkably beneficial in the diagnostic process, yet the well-performed history and the physical examination remain the clinician's most important tools.

UpToDate
Bates College is a private liberal arts college in Lewiston, Maine. Anchored by the Historic Quad, the campus of Bates totals 813 acres (329 ha) with a small urban campus and 33 off-site Victorian Houses distributed throughout the city. It maintains 600 acres (240 ha) of nature preserve known as the "Bates-Morse Mountain" near Campbell Island and a coastal center on Atkins Bay.

Bates College - Wikipedia
An abdominal examination is a portion of the physical examination which a physician or nurse uses in order to interrogate the abdomen of a patient for signs of disease. The physical examination typically occurs after a thorough medical history is taken, that is after the physician asks the patient the course of their symptoms. The abdominal examination is conventionally split into four stages ...
