### **Fowler Patterns Of Enterprise Application**

Patterns of Enterprise Application Architecture is written in direct response to the stiff challenges that face enterprise application developers. The author, noted object-oriented designer Martin Fowler, noticed that despite changes in technology--from Smalltalk to CORBA to Java to .NET--the same basic design ideas can be adapted and applied to solve common problems.

(Fowler) Core J2EE Patterns: Enterprise Application Architecture patterns in the context of the Java J2EE platform. Although the patterns are focused around the J2EE platform, the patterns are usually equally applicable (albeit with a twist) to other enterprise application platforms.
