Guerilla sculpture is the placement of sculptures in street settings without official approval; it developed from street art in England in the late 20th century. In addition to the nontraditional setting of the works of art involved, there are also many different techniques used in the creation of this art work.

The presence of street art in an urban context was primarily based on the notion of repetition. What does this mean? Since the impact of the message becomes notable solely through the perceivable presence in the urban context, graffiti artists lived with the imperative to reproduce their typography or different symbolical expression over and over again.
