Addiction to ether consumption, or etheromania, is the addiction to the inhalation or drinking of diethyl ether, commonly called "ether". Studies, including that of an ether addict in 2003, have shown that ether causes dependence; however, the only symptom observed was a will to consume more ether.

Do you monitor your teenager to assure that he or she does not spend too much unsupervised time with peers? Childhood is a period of major growth and change. Youth tend to be uncertain about themselves and how they “fit in,” and at times they can feel overwhelmed by a need to please and impress their friends. These feelings can leave children open to peer pressure.
