Ontological Fundamentals For Ethical Management

We explore how the readability of annual reports varies with earnings management. Using the Fog Index to measure readability (), and focusing on the management discussion and analysis section of the annual report (MD&A), we predict and find that firms most likely to have managed earnings to beat the prior year's earnings have MD&As that are more complex.

Amanda Sharkey has produced a very good paper on robot ethics which reviews recent research and considers the right way forward – it’s admirably clear, readable and quite wide-ranging, with a lot of pithy reportage. I found it comforting in one way, as it shows that the arguments have had a rather better airing to date than I had realised.
