Permanent Hair Solution

Open a magazine and you'll see pictures of models, all with one thing in common: sleek and shiny hair. Unfortunately for the rest of us, when we get out of the swimming pool our hair dries into a frizzy mess. Using a straightening iron is a solution, but doing it after every shower or dip in the pool is painfully time consuming.

Hair transplantation is a surgical technique that removes hair follicles from one part of the body, called the 'donor site', to a bald or balding part of the body known as the 'recipient site'. The technique is primarily used to treat male pattern baldness. In this minimally invasive procedure, grafts containing hair follicles that are genetically resistant to balding (like the back of the head ...
