Psychology is the science of behavior and mind (not to be confused with neuroscience, which studies the neural underpinnings of psychological phenomena ex. neural circuits). Psychology includes the study of conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope. Psychologists seek an understanding of the emergent properties of brains...

Wealth, Well-being, and the New American Dream: by David G. Myers. Does money buy happiness? Not! Ah, but would a little more money make us a little happier? Many of us smirk and nod. There is, we believe, some connection between fiscal fitness and feeling fantastic. Most of us tell Gallup that, yes, we would like to be rich.
