Adolescence is a developmental stage of life that is shaped by changes in the body and mind, and by the environment [1]. Throughout the adolescent years, the body and brain grow and change, and while becoming accustomed to these changes, the adolescent must learn to negotiate new responsibilities, evolving relationships, and a new sense of self.

Adolescence (from Latin adolescere, meaning 'to grow up') is a transitional stage of physical and psychological development that generally occurs during the period from puberty to legal adulthood (age of majority). Adolescence is usually associated with the teenage years, but its physical, psychological or cultural expressions may begin earlier and end later.

Adolescence - Wikipedia
Romantic relationships have much to teach adolescents about communication, emotion, empathy, identity, and (for some couples) sex. While these lessons can often provide a valuable foundation for long-term relationships in adulthood, they are also important contributors to growth, resilience, and happiness in the teen years.

Adolescent sexuality is a stage of human development in which adolescents experience and explore sexual feelings. Interest in sexuality intensifies during the onset of puberty, and sexuality is often a vital aspect of teenagers' lives. In humans, sexual interest may be expressed in a number of ways, such as flirting, kissing, masturbation, or having sex with a partner.

Adolescent sexuality - Wikipedia
Human sexuality is much more complex than the biological forces that initiate the sexual maturation process. As such, the development of adolescent sexuality includes not only physical development but also cognitive, emotional, social, and moral development.

Erik Erikson was an ego psychologist who developed one of the most popular and influential theories of development. While his theory was impacted by psychoanalyst Sigmund Freud's work, Erikson's theory centered on psychosocial development rather than psychosexual development. The stages that make up his theory are as follows:
