### **The Snow Garden**

The Snow Garden is a fast paced mystery/thriller with plenty of intrigue and suspense. The various twists and turns throughout the novel made for a wild ride to the finish. Excellent character development and harsh dose of reality infused into the characters as well.

Christopher Rice's second novel, The Snow Garden, has been described as a psychological thriller and a modern horror story. I found it to be more a chimera of the two, like a cross between The Harrod Experiment and a Patricia Cornwell thriller. Set in Atherton College, the plot is driven by Kathryn, Randall, Jesse and a host of other students.

A Snow Garden and other stories is a book of seven short stories, which generally all have a small link with each other, with the exception of The Boxing Day Ball, which just felt a bit out of place. But I also felt that one was the weakest story of the bunch.
