Robert grew up doing woodwork with his father. When he was twelve he took his violin apart and attempted to make it sound better by scraping the plates thinner with a piece of glass; a crude trick used by the older generation of fiddlers to get an over-wooded German trade violin to sound better.

### **Robert Zielinski | VIOLIN MAKING**

The Peter Prier Violin Making School in Salt Lake City, Utah has taught close to 500 luthiers over the years. There are over 130 violin makers from around the world who have graduated from the school, some very well known for their fine instruments. The following images, from the Prier Violin

School, show the process of making a violin from start to finish.

### **Violin Making - The Violin Site**

This is a good historical introduction to Violin Making which was originally published in the 19th century. I've read some modern publications (articles and booklets, mostly), which seem more practical for today's maker. However, I would say that this book is core literature on violin making.

### **Violin-Making: A Historical and Practical Guide by Edward ...**

Delivery was extremely prompt. Thanks Amazon. The book is one of a series. It is well written and is a good tutorial before building a violin. I had bought the book "violin Making" by Henry and he did refer frequently to this book.

THE PRIMARY WOODS USED IN VIOLIN MAKING are spruce and maple. Spruce is chosen for the top, also called the front, table or soundboard. It is light in weight, yet longitudinally strong and laterally flexible. To the eye, the most prominent feature of a spruce top is the darker vertical graining. These grains are the annual growth rings of the tree.
